We are seeking applicants who demonstrate an interest in public service, government, and/or law enforcement. While the posted application deadline is September 13, 2024, please be advised offers will be made on a rolling basis.*

Applicants are encouraged to learn more about the OAG prior to submitting their applications by visiting the [Divisions and Bureaus](#) and [News and Media](#) sections of the OAG’s website.

Placement Experience

- Selected law students will assist attorneys in all phases of their work.
- By conducting law-related assignments, students will be exposed to a broad range of legal work that will allow them to gain valuable public interest law experience. Assignments may include, but will not be limited to, the following: writing memoranda; drafting pleadings, writing discovery requests or responses; preparing for and attending depositions, hearings, or in-court matters; interviewing clients, witnesses, and experts; assisting with investigations, case negotiations; and conducting general legal research assignments.
- In their assigned bureau/office, students will have the opportunity to interact regularly with attorneys who are working on innovative and impactful cases. The OAG is committed to ensuring students have an interactive and professionally valuable experience.
- A key objective will be for law students to finish their placements with a legal writing sample.

Program Details

- **The OAG is offering students two program format options during the 2024 Fall Program: hybrid or remote. Please review the following for information about each format option. Format availability will vary by bureau and location, see the posting for details.**

On the days students will be working remotely, they will need to have access to a reliable computer, a secure internet connection, a phone, and a sufficiently quiet and private workspace to telework.
 - 1) A remote placement, which means students will telecommute for the duration of their placements.
